

4 QUESTIONS TO HELP YOU CLASSIFY aEEG

Question	Yes	No	Name of tracing	Is it ever normal or expected?
1. Is the upper border above 5?	Continue to #2	X	= Inactive	Never
2. Is the upper border above 10?	Continue to #3	X	= Continuous low voltage	Never
3. Is the lower border above 5?	X	Continue to #4	= Continuous normal voltage	Yes – For Term Infants
4. Is there variability of the lower border?	X		= Discontinuous normal voltage	Yes – For Pre-Term Infants No – For Term Infants
		X	= Burst Suppression	No – For Term Infants “Yes” – For Extremely Pre-Term Infants
